The Best Practices Seminar

Integration of amazon
protected areas in the
lanscape

Lima, September 11-12, 2018

Application
form to present
cases

You can ask for help filling out the form or clarifying questions by writing to the **WhatsApp number +51 991949855** or to the following email:

seminario.buenas.practicas@gmail.com

Please don't hesitate to contact us, your participation is important.

1. Contact information

a. Name of the contact person

.....

b. Organization of the contact person

.....

c. Email of the contact person

.....

d. WhatsApp contact number

.....

e. Please include the names of other organizations and people who contributed to this application

.....

.....

.....

2. General information regarding the experience

a. Countries and/or subnational jurisdictions involved

.....

.....

.....

b. Name of the experience

.....

c. Name of the national or subnational protected areas directly involved

.....

.....

.....

.....

d. Name any other areas involved (municipal, indigenous territories, others)

.....
.....
.....
.....

e. Name any other organizations and/or people, other than the proponent, that participated in the experience and describe their role in one line

.....
.....
.....
.....
.....

f. What was the timeframe during which the experience was actively implemented?

.....

g. Please explain why you consider the case to be an integrated management practice

.....
.....
.....
.....
.....
.....

h. If possible, please indicate the territory where the experience was developed on a map (Attach as a separate file). Please **Note: you can send a photograph of a hand drawn map which shows the protected area involved**

3. Experience themes: Please indicate which of the themes you consider are related to the case being presented (please review the definition in the Terms of Reference):

- a. Support good governance in the integrated management of the protected area
- b. Improves the way the protected area is integrally managed
- c. Promotes the integrated management of local or scientific knowledge in the protected area and its territory
- d. Strengthens capacities for the integrated management of protected areas
- e. Improves the living standards of local communities that live in and adjacent to the protected area territories that are integrally managed.....

4. Description of the experience

- a. Describe the situation in the territory which led to the best practice. What was the context? Was there a problema prior to implementing the best practice? (Please don't explain the best practice yet, only provide the background)

.....
.....
.....

- b. Considering the information in the last question, what actions were taken to change the situation? Describe in detail the practice that was implemented and its results

.....
.....
.....

- c. Which actors were directly involved in the experience?

.....
.....

- d. Did the development of the experience require more resources than typically needed? And if yes, how was this situation solved? Was financial aid required, or the involvement of an external actor, technical capacity, normative changes, etc.?

.....
.....
.....

- e. A best practice is an action that was successful and worked well. What did this experience achieve and why do you think it achieved the results?

.....
.....
.....

5. Other aspects related to the practice

Note: Each answer shouldn't exceed 10 lines

- a. Achievements: What are the big achievements in relation to the conservation of natural resources, the management of the protected area or various protected areas and/or improving livelihoods of local populations?

.....
.....
.....
.....
.....
.....

- b. Success factors: What do you consider to be the main aspects that ensured the success of the experience?

.....
.....
.....
.....

- c. Innovation: What about this experience do you consider to be innovative and different in relation to other experiences in the Amazon biome? Please provide details

.....

.....

.....

.....

.....

- d. Replicability: What would you recommend to someone trying to replicate your experience in an Amazon context? What should they take into account? What limitations, problems and challenges did you face?

.....

.....

.....

.....

.....

- e. Permanence: If the practice is no longer being implemented, please explain what happened. Why did it stop being implemented? What affected its permanence in time?

.....

.....

.....

.....

- f. Vision towards the future: If the practice is still being implemented, what are its perspectives for the future? Will it be strengthened or disappear? Improve or can't be improved upon? Will it be expanded to other areas or is the focus only where it is currently situation? What is the vision for the future?

.....

.....

.....

.....

.....

- g. Participation: Has the practice been a facture in empowering local communities and has it increase their participation in the management of the protected area and/or territory? How did they participate?

.....

.....

.....

.....

.....

- h. Lessons learned: What lessons were obtained from the best practice? What didn't work? How were the challenges addressed? What could have been done differently?

.....

.....

.....

.....

.....

- i. Participation of vulnerable groups: Did socially vulnerable groups participate in the experience? For example, women, youth, indigenous peoples, etc? How did they participate?

.....

.....

.....

.....

.....

.....
